

American Standard Blind Rivet

Features and Benefits

- 1/8" dome head style
- Provides secure and permanent fastening solution
- Good installed appearance
- Won't loosen in high vibration or fatigue applications
- Quality and repeatability of assembly
- No over driving or under driving
- Installed function of the rivet will be consistent and is independent of the installer's technique

Application

Metal trim applications and other light gauge installations

Installation and Application Considerations

Use of a #30 drill bit is required for a pre-drill hole size of 0.129"–0.133" (3 mm–3.3 mm).
